FOR IMMEDIATE RELEASE

Trane Expands Sales Office and Parts Center in Westchester, NY

Paul Feiner, Supervisor of the Town of Greenburgh, Joins for Official Ribbon Cutting

Elmsford, N.Y., October 23, 2006 -- Trane, a leading global manufacturer and provider of indoor comfort systems and comprehensive facility solutions, is expanding the ways in which it offers customers in Westchester with energy efficient heating, ventilation and air conditioning (HVAC) systems and services, with a new and larger sales office and Parts Center.

Trane's office and Parts Center will move into a 4,800 square foot space at 11 Clearbrook Road in Elmsford. The business will employ 5 full and part time sales, service, parts and administrative employees. And to celebrate, Trane will hold an open house on November 2, 2006.

Trane will be holding an open house for the press on November 2, 2006, 10:00 a.m. to 2:00 p.m. at its new location. **Paul Feiner**, Supervisor of the Town of Greenburgh, will officially cut the ribbon at noon. Please contact Kristin Kubicki, 973-434-2136, kkubicki@trane.com to confirm attendance.

"We're investing in Westchester with expanded space which leaves room for us to hire additional employees," said Richard Halley, district manager for Trane in New York / New Jersey. "We've been serving Westchester County for 8 years including industrials, office buildings and financial service organizations with a full spectrum of HVAC systems, services and solutions. Our new space will allow us the flexibility we need to serve these customers even better than we do today."

Trane's Parts Center offers a full-line of Trane and non-Trane parts – including more than 100 of the most recognized wholesale parts and supply lines in the industry. Trane Parts Center offers OEM spec parts for Trane equipment and a broad offering of aftermarket parts for almost any HVAC system.

"Our customers continue to tell us that they don't want to travel more than 20 minutes to purchase Trane and non-Trane parts and want greater flexibility in how they purchase them," said Halley. "The Westchester Parts Center helps us achieve this goal."

In addition to the Westchester Parts Center, service contractors and building owners can purchase parts online 24/7 through Trane's ComfortSite ordering system and through an express order system ready to ship any stocked emergency repair order part the same day.

Trane's Westchester office is part of the Trane New York - New Jersey district sales organization. The district has additional sales offices in New York City, Long Island and Parsippany, NJ as well as five other retail parts centers with NJ locations in Pine Brook, South Plainfield and Teterboro as well as NY locations in New York City and Long Island.
